Compromisso com a sustentabilidade

Brazil: Process towards industrial chemicals legislation

WHY to act?

- Identify chemicals placed in the Brazilian market
- Overcome absent, weak or unclear **mandates** to the Brazilian authorities to perform risk assessment/risk management
- Ensure capacity to prevent substances banned abroad to be introduced in the Brazilian territory

Compromisso com a sustentabilidade

Brazil: Process towards industrial chemicals legislation

WHAT is missing?

- Inventory
- Mandates
- Institutional arrangements and Rules of Procedures
- SCM toolbox (register, GHS, criterias, risk assessment plan, testing guidelines, etc.)
- Regulatory performance measures
